THE ART OF GLOW

A STUDY IN SKIN LUMINOSITY, REFINEMENT + INNOVATION

THE SUMMER RENEWAL PROTOCOL

—
**SAVE MONEY AND
SEE MORE RESULTS**

01 Oxygen Infusion

Deeply hydrate, cleanse and replenish nutrients to dry, sensitive or stressed skin.

02 Dermaplane

Remove peach-fuzz and dead skin on the surface to unveil new, brighter skin below.

03 BioRePeel Blue

Add BioRePeel for an otherworldly glow. Target stubborn pigment and fine lines with TCA to stay fresh for summer and perfectly prep for fall.

THE ART OF GLOW

WHY DOES IT WORK?

This combination treatment blends natural ingredients with advanced science.

Our special oxygen formula neutralizes bacteria, soothes redness, and deeply nourishes even the most sensitive skin.

Dermaplaning elegantly removes dead skin and vellus hairs effectively for smooth skin.

BioRePeel offers chemical exfoliation that promises "glass skin". Since the 1990s, trichloroacetic acid (TCA) has been the superstar ingredient for zapping pigmentation and ramping up collagen production. This peel delivers TCA in a way that works its wonders effectively.

Perfect for a gentle summer glow-up, this treatment also gets your skin ready for powerhouse collagen-boosting treatments come fall.

DISCOVER THE BENEFITS OF OXYGEN & TCA

THE NEXT GENERATION TOXIN

DAXXIFY

**AN AMERICAN
INNOVATION**

FAST.

DAXXIFY® kicks in quickly. Results are seen as early as the next day and typically within 2 days after treatment.

The first and only vegan frown line treatment with a peptide formulation.

LASTS.

DAXXIFY® is long-lasting, keeping your frown lines smooth with gradual softening over time. More than 50% had no or minor frown lines until 6 months after treatment.

AND THE LOOK.
